

S-NET Connect Mobile V6

Download & Installation Guide

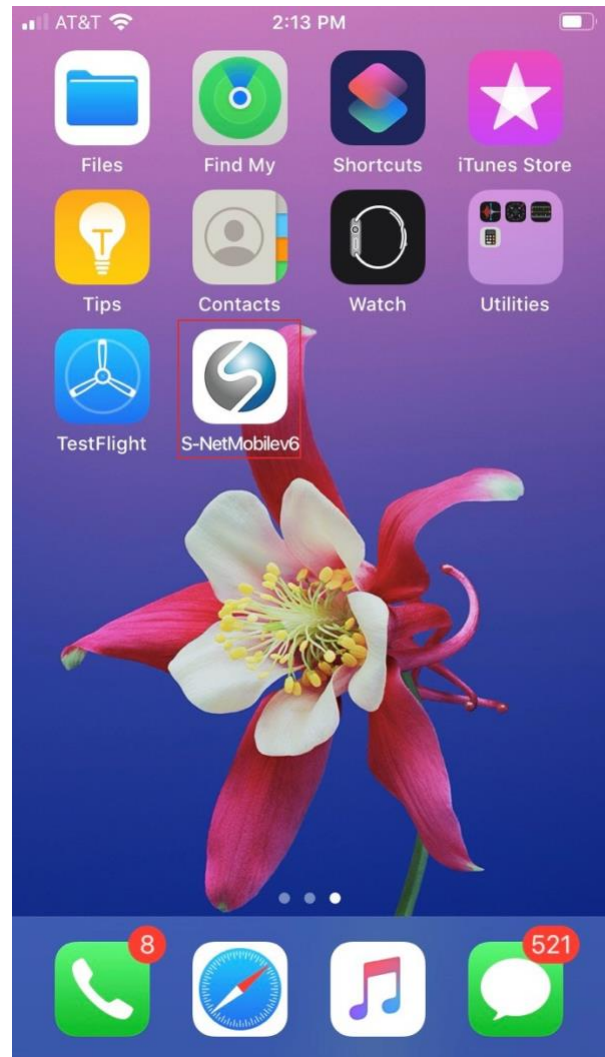

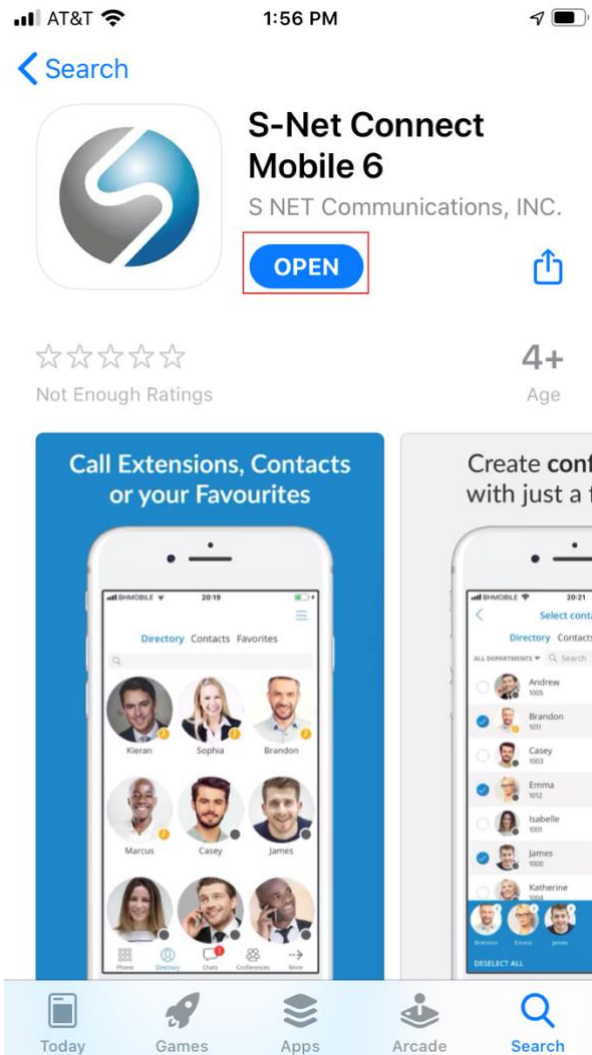

Download and Install S-NET Connect Mobile

1. Open iTunes on your iPhone and search for S-NET Connect. Select **GET**.
 2. Select **Install** and wait for the application to download and install.
- **Note:** If you already have S-NET Connect Mobile 5, you can skip ahead to step 9 after installation.

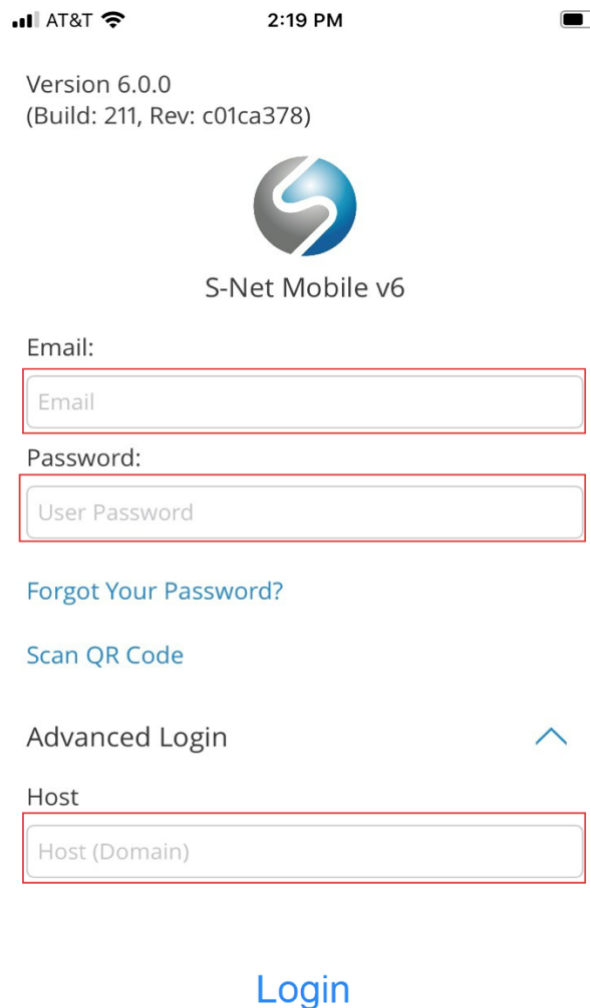

3. Click [Open](#) or navigate to your home screen to open the application.

4. Enter your work email address, password and server information.

- i. **Username:** Your work email address
- ii. **Password:** Your S-NET Connect password
- iii. **Host:** Server URL provided by the S-NET Team

The S-NET Communications Team will provide you with a server URL, as well as a temporary password if you are a first-time user of S-NET Connect
